Services

Touchdown Machining Inc. has a customized approach to quality and delivery to meet and exceed your companies' requirements. We offer a broad range of machining services while specializing in: Production Tooling, Fixturing, Extrusion Dies, Gauging and Prototype Tooling. Our equipment consists of Okuma and Haas CNC Vertical Machining Centers and Okuma Lathes.

To complement our CNC department, we offer grinding and welding services in addition to a Mitsubishi Wire EDM, Ingersoll Die Sinker, Several Knee Mills in our Manual department and a CNC Sheffield CMM to verify our parts meet and exceed your requirements.

History

Mike and Kris Moore established Touchdown Machine Inc. in 1994. In 1997, the company compellation two things, Brett Quillen and Sam Wilcoxon were brought in as partners; we moved the shop and purchased a building in Columbus. In spring 1999, the company received ISO Certification and also in 1999, we have completed an addition of 1950 sq. ft. of manufacture space. Added 3000 sq. ft. dedicated to CNC Machining. The company is now open 24 hours a day 7 days a week to handle any of our customers needs.

Technology

We compliment our machining services by using the latest in CAD/CAM Software such as AutoCAD and MasterCAM. We are able to, in most cases, import your model or wire frame drawings into MasterCAM and create programs for our CNC Machines.

We are able to track your orders through the shop using JobBOSS software. JobBOSS allows us to track a job from the initial quote through final shipment.
